Paycheck Protection Program (PPP)

Re-Launch Overview

January 2021

This presentation is developed to provide a general overview of PPP loan processes related to provisions in the Economic Aid to Hard-Hit Small Businesses, Nonprofits, and Venues Act (the Economic Aid Act). In the event of any inconsistency between this presentation and the Economic Aid Act, the Paycheck Protection Program Flexibility Act of 2020, the CARES Act, PPP IFRs, PPP FAQs, PPP Application Forms and Instructions, and other PPP guidance (together, official guidance), the official guidance governs.
To ensure increased access to PPP for minority, underserved, veteran, and women-owned business concerns, SBA is undertaking the following steps, among others:

- When the PPP First Draw and then the PPP Second Draw loan portal re-opens, the initial launch will accept loan applications first from Community Financial Institutions (CFIs). CFIs include Community Development Financial Institutions, Minority Depository Institutions, Certified Development Companies, and Microloan Intermediaries.

- Lender Match will direct borrower inquiries to these mission-based lenders, who generally assist the underserved communities.

- SBA will continue setting aside dedicated hours to process and assist our smallest PPP lenders with their PPP loans.

How do I know if my institution is a CFI?
If “Lender Location Enabled for Origination in Etran” is checked in Institution Settings, your institution is an enabled CFI (see example below).

My institution is not a CFI. What am I enabled to do in the Platform now?
Organization admin users can begin to add users in the Platform and review new and updated materials on the Resource tab in the Platform.

New Feature Alert

There will be a time lapse between when a Lender submits PPP application information to SBA and when SBA provides an SBA loan number back to the Lender due to additional front-end compliance checks.
