

## Mint Conversion Information

As Reading Cooperative Bank completes its system conversion, Mint aggregation services may be interrupted for up to five business days. Mint.com data is stored on Intuit cloud servers. Data is updated with every change and cannot restore data to a previous point in time.

For a successful account update, do not log into your Mint.com until after the 2<sup>nd</sup> action date: Monday, November 8, 2021

During this time, the Mint.com server will automatically make the system conversion for your activated accounts. If you login into Mint.com during this time, you may see duplicate accounts or an error displayed. Please do not attempt to change the status or make any changes in Mint.com during this time. After five business days, the accounts should reconcile showing your transaction history available.
